

20th ANNUAL MS GOLF TOURNAMENT

Lakewoods Resort and Golf is very pleased to announce the 20th Annual MS Golf Tournament at Lakewoods Forest Ridges Golf Course on Friday, July 20th and you are invited to be part of it!

This annual event has helped raise over \$350,000 to assist those living with Multiple Sclerosis within the Ashland, Bayfield, and Sawyer counties of Northwest Wisconsin. We would like to continue this outstanding success and double the amount within the next three years. However, in order for this goal to become a reality, we need your assistance.

You are invited to become a sponsor of this very worthwhile event. All sponsor monies donated are tax deductible and all money raised will be used primarily for MS-related causes with a small percentage going to area people with cancer. As decided at the 2014 MS Golf Benefit a small percentage of monies would go to the Namakagon Cancer Walk fund that goes to benefit area people fighting cancer.

There are several levels of sponsorship noted on the attached sponsors sheet. Please contact a member of the MS Golf Committee or we will be contacting you to discuss how you can be involved in this event.

In the meantime, if you have any questions or would like further information regarding this very exciting opportunity, please contact Kathy Rasmussen or Ann Chapman at Lakewoods Resort at

715-794-2561 or Kathy@LakewoodsResort.com, Heidi@LakewoodsResort.com.

We welcome your involvement with this event and thank you for your continued support.

SAW-BAY-ASH MS GOLF CHARITY

Since the MS Golf Charity's start the monies raised have assisted in purchasing the following items for people in our local communities:

- Electric Wheel Chairs
- Ramps into Homes
- Hospital Type Beds with Remotes
- Car Ramps
- Bathroom Remodeling
- Safety Handles in Homes
- Air Conditioning in Homes
- Wheelchair Accessible Vehicles

MULTIPLE SCLEROSIS FACTS

Multiple sclerosis (MS) is an inflammatory disease of the central nervous system (CNS) that damages the myelin sheath, or insulating material, that surrounds the nerve fibers in the brain, spinal cord, and optic nerves. No two cases of multiple sclerosis are alike.

Multiple sclerosis is generally diagnosed in individuals between the ages of 20 and 50. Women develop MS at a rate of two to three times that of men. In the United States, the disease is more common among Caucasians, especially those of northern European ancestry. MS occurs most frequently in "temperate zones" of neither extreme heat or cold.

In the United States, it is estimated that approximately 400,000 people are living with multiple sclerosis, and nearly 200 cases are diagnosed every week.

20th Annual MS Golf Tournament
